MOTHER'S CLOCK. BY IKE MARTIN.

A youth sat on a sofa wide, Within a parlor dim; The maid who lingered by his side Was all the world to him.

What brought that glad light to his eye-That cadence to his tone? Why burns the lamp of love so high, Though midnight's hour hath flown? The clock above the glowing grate Has stopped at half-past ten;

And, long as that young man may wait,

It will not strike again. The artful maiden knows full weil What makes the clock act so, And why no earthly power can tell The time for him to go.

Stock and Bond Quotations-Baltimore and New York Produce Markets.

The following observations on the transactions in the financial market yesterday, together with opening, highest, lowest, and closing quotations, are fured by the banking-house of H. D. Cooke, jr., & Co., 1429 F street, Washington, D. C.: The market has declined steadily all day, with no rallies, and at the close shows a general decline of 1/2 to 51/2 per cent., the average drop being 21/2 per cent.

tocks most conspicuously "off" are Jersey Central, 514; Michigan Central, 324; Lake Erie and Western, 3¹4: Canada Southern, 3¹4; Pacific Mail, 3¹4, and Lake Shore, 3 per cent. The only advances have been in Chicago, Burlington and Quincy, 4 per cent. up, and St. Paul preferred, 1/4 per cent. up. It seems that the effect of last winter's damage and expense to the railroads by reason of the severe snow-storms, &c., is just finding its way upon the market. A month agoin the face of the most disastrous snow blockades and icut enormous expenditures on the part of the roads-prices advanced irrespective of intrinsic merits, and seemed to enhance in value in proportion to the reasing impediments to travel and traffic. This natural condition of affairs was noted at the time n our letters. It seemed to us that certain large operators were "bolstering" the market and forcing t up by artificial pressures in order to dispose of their ngs. This surmise has since been verified. Were it not for the fact that money was so freely offered to-day there would have been a much heavier decline than was experienced. There is in "the street" a general doubt as to the justice of present prices. Tothere has been no buying except for liquidation. gain had the floor to themselves. Whether prices Il decline immediately or remain for a while longer the present prices we dare not say. But one thing he level in which they belong, according to their true ralues. The tide of "bull" speculation is too weak to support them at present figures, and ere long the effects of the past damaging winter will be visible in the ists of "dividends payable." Were it not for the wisdom of the Secretary of the Treasury in arranging his inancial policy so as to keep money easy in Wall treet, we should ere this have witnessed a grand
